Scientific Committee

Eldar Søreide (SAFER), Peter Dieckmann (DIMS), Nikki Maran (SESAM EC), Karina Aase (University of Stavanger), Stephen Sollid (Norwegian Air Ambulance Foundation), Hege Ersdal, (SAFER), Sissel Eikeland Husebø (University of Stavanger and SAFER), Helge Lorentzen (SAFER), Andy Newton (University of Surrey), Patrick van Gele (University of Health Sciences, Lausanne)

Organising Committee

Elsa Søyland (SAFER), Ralf Krage (SESAM EC), Sigrun Anna Qvindesland (SAFER), Liv Tjessem (SAFER), Helge Lorentzen (SAFER), Arne Rettedal (University of Stavanger),

Professional Conference Organiser

Kjell Hauge (Akuttjournalen Arena Inc), Liv K. Norland (Akuttjournalen Arena Inc)

Highlights in the Scientific Program

Safer Practices

This year we will focus on Safer Practices in healthcare with three main themes:

- **Patient Safety** - The connections between patient safety and simulation
- **Education** - The educational aspects behind simulation
- **New Frontiers** - Simulation in health care in the next decade

Healthcare professionals from all backgrounds will find interesting topics and discussions, with particular focus on simulation in Pre-Hospital Care, Surgical Specialties, Critical and Intensive Care, Primary Care, and Nursing Education.

New this year: Meet the Experts!

Book a meeting with an international expert to discuss your favourite topic. Check the conference website for continuous updates. Register free of charge at our website or on-site if available space.

Pre-Conference Opportunities June 13th

An international faculty of nurse educators will hold a pre-conference course at SAFER on June 13th. Open course for all interested.

“Helping Babies Breathe” and “Helping Mothers Survive” pre-conference activities. Low-tech simulation in Europe for safer births, at the University of Stavanger on June 13th.

SESAM welcomes more simulation related pre-conference activities. There are available rooms for courses at the main conference location at the University of Stavanger. Do you have an idea? Send in an abstract to: scientific@sesam2012.net.

Please check the website for more information and registration.

Utstein Meeting

From June 12th - 13th, a consensus meeting will be held at the Utstein Abbey just outside of Stavanger. The goal is to define the “Top 5 topics in healthcare simulation that will contribute to improve patient safety.”. The Utstein Abbey is well-known as the meeting place for many similar acute care consensus projects. These meetings have all been sponsored by the Laerdal Foundation for Acute Medicine (www.laerdalfoundation.org). The SESAM 2012 organisers have invited patient safety research specialists from all over the world. A summary of the results will be presented in a plenary session at the SESAM 2012 conference.

Debriefing Olympics

Come and watch this informal workshop where competing facilitators debrief live onstage and receive feedback from international experts. Preliminary rounds June 14th and 15th, and finals Saturday June 16th.

Debriefing Challenge Parcours

Join the “Debriefing Challenge Parcours”- try to solve 3 different, difficult debriefing situations. Get feedback from experienced instructor trainers on your individual debriefing. You have 10 min per debriefing station. If you master all the 3 challenges you earn the 2012 Debriefing Challenge Parcours “trophy”. The best solutions will be announced at the end of SESAM 2012.

ASPE

The Association of Standardised Patient Educators will share their experiences and knowledge of using Standardised patients in simulation. They will provide different sessions in different formats and reveal the factors of benefit and success for running simulation this way.

Keynote Speakers

Patient Safety

Tanja Manser holds a professorship funded by the Swiss National Science Foundation at Université de Fribourg where she leads a team of psychologists conducting research on human performance and patient safety. Her work is focused on studying relevant behaviours such as teamwork in operating theatres, and communication during postoperative handover in clinical and simulation environments. She received a MSc in psychology from the University of Freiburg, a PhD in psychology from the University of Zurich and a Habilitation in psychology from ETH Zurich. She has worked as a Post-Doc at the Department of Anesthesia, Stanford School of Medicine, and the Patient Simulation Center of Innovation, VA Palo Alto, with David Gaba (2003-2005) and as a Marie Curie Research Fellow at the University of Aberdeen (2009-2010) with Rhona Flin.

Her presentation will review examples of patient safety research focusing on current challenges regarding methodological and measurement issues. The implications for simulation-based research as well as for simulation training will be discussed.

New Frontiers

Suzan (Suzie) Kardong-Edgren is a recognized national and international thought leader in simulation and simulation research. Dr. Edgren has her professional background as a RN and in 2004 completed her PhD in health studies. Dr. Edgren is a consultant for the US National Council of State Boards of Nursing landmark simulation study, investigating the substitution of up to 50% simulation for traditional clinical education hours and a US project exploring the use of simulation for high stakes testing in nursing education. She is the Editor-in-Chief of Clinical Simulation in Nursing, the journal of the International Nursing Association of Clinical Simulation and Learning (INACSL).

Dr. Edgren is busily scouting New Frontiers in Simulation and will bring you news of what she has found in her SESAM presentation.

Education

Charlotte Ringsted has her background in anaesthesiology. She changed her career path to Medical Education in 1997. Since then, Professor Ringsted has worked with development and research in simulation-based training of undergraduate and postgraduate education, clinical training, development and assessment of competence as well as faculty development. All this is reflected in recent publications on research in medical education in general, and research in simulation-based training in particular.

In her presentation professor Ringsted will briefly summarise some recent reviews on benefits of simulation-based training and effects on learning outcome, quality of practice, and hence patient safety.

Preliminary scientific program *Thursday June 14th*

Time	Format ¹	Theme ²	Scientific program	Target group ³
				N PH IC S PC
8:30 - 10:00			Registration, coffee and refreshments. Time to socialise and set up posters.	
10:00 - 10:30			Opening of SESAM 2012	
			Welcome and introduction to SESAM2012	
			How to get the most out of this meeting

Visit SAFER – The dynamic simulation centre in Stavanger

SAFER - Stavanger Acute medicine Foundation for Education and Research - was established as a partnership between Stavanger University Hospital, the University of Stavanger, and Laerdal Medical. The main goal of the centre is to strengthen acute care education and patient safety.

On Thursday and Friday (June 14 and 15) SAFER invites all conference participants to

visit the SAFER facilities. There will be bus transport from the conference to SAFER and back to the conference. Remember to pre-register on the form for "Hotel accommodation and social events" on sesam2012.net. It will be possible to register on-site at the conference information desk, if space available.

Social program

The Hall Toll conference pub

Hall Toll is the official SESAM 2012 restaurant/pub. It is located in the middle of the Stavanger harbour area. Hall Toll is a modern, stylish restaurant in the old City Customs building right in the middle of the downtown scene. On the first floor is a pub and stage popular for smaller concerts... or Stand Up events.

There will be special offers for SESAM 2012 participants, and early conference registration the evening of June 13th from 1900 hours. Stand Up Simulation will also take place here on Thursday evening June 14th. The restaurant at ground floor has excellent dining opportunities and a lively atmosphere.

Wednesday June 13th

Early registration and Get together

Meet other "eager birds" on Wednesday June 13th at Hall Toll, and register for the conference, from 20.00 hours. This will be a casual evening to meet new and old friends and get into the conference state of mind.

Photo: ©Atle Hagen-Akuttjouhølen Arena

Thursday June 14th

Welcoming reception

Immediately after the last session, there will be a welcoming reception at the conference venue. Light refreshments will be served while you have an outstanding opportunity for socialising.

The Utstein Abbey

– medieval monastery on an island near Stavanger, Thursday 20.00-23.00. You will be given a guided tour and introduced to the history of this tranquil and beautiful spot. Inhabitants ranged from Viking kings, Augustinian brethren (who were also health care providers), to today's modern conference centre. Utstein is also a well known term in modern acute medicine. The abbey church is renowned for its exceptional acoustics. Register for the event online on the form for "Hotel accomodation and social events" on www.sesam2012.net. If available, tickets will be sold at the conference information desk. Cost NOK 380 (approx 50 €)

Stand Up Simulation

On Thursday evening (20.00 - 23.00 hours), we repeat the success from previous conferences held in Stavanger - Stand Up Simulation! This will take place at the conference pub Hall Toll on the first floor (reserved for SESAM guests). Stand Up Simulation is an informal session of academic presentations, or other sketchable happenings related to simulation in the spirit of Stand Up comedy. Each presenter, or group, will be given just four minutes to outline their research with just a flip chart, or perform their sketch. Different "weight categories" open for a wide range of participants: Feather Weight, Middle Weight, Heavy Weight. They have to convince an expert panel of judges and the audience that their research project, or sketch, was worth listening to and educational.

The audience feedback will strongly influence the final score. **Entrance is free of charge for participants and audience.** Want to come?

Take the challenge and sign up as a participant (open for individuals and groups). To enter just send an e-mail with your abstract/outline attached to scientific@sesam2012.net.

Friday June 15th

Photo: ©Helge Lorentzen-SAFER

Social Evening

Fjord cruise, conference dinner, live entertainment and dancing on the pier on a midsummer evening in the Lyse fjord!

The main social event of the year will take place Friday evening with a magnificent, memorable midsummer evening! This is a roundtrip cruise into the Lyse Fjord with a stop for dining and dancing. We begin by embarking sightseeing cruiseboats from downtown Stavanger harbor. The cruise takes us past charming islands with summer cottages, through waters rich in sealife, into the Lyse Fjord and under steep mountain cliffs. You will experience the contrasts in the landscape, and sense the massive forces of nature. We will gaze up at the famous Pulpit Rock from sea level. as an appetizer for the next day's "Pulpit Rock Hike" at the conclusion of the conference. The cruise makes a stop at the Lysefjordsenter fjordside restaurant where we will dine on fresh Atlantic ocean shrimp and sip on white wine. Of course, if you have seafood allergies let us know upon signing up. Alcohol free alternative beverages will be available also. This will be a once in a lifetime opportunity to dine and dance midsummer on a Norwegian Fjord. After dinner, the boats will bring us back to the Stavanger harbor.

Register for the combined cruise and conference dinner through the online conference registration. It will be possible to purchase tickets on-site only if available - there is a limited number. Price NOK 730 (approx. 95 €)

Saturday June 16th

The Pulpit Hike

Lonely Planet has chosen the Pulpit Rock as one of the top ten most spectacular viewing points in in the world!

Saturday offers an opportunity for an unforgettable experience. Join us for a hike to the Pulpit Rock, the plateau 600 metres above the Lyse fjord. This is one of the major tourist attractions in Norway. The entire excursion takes 7 hours, including transport by ferry and bus and about 3 hours of walking in total. **This event is free of charge**, and includes lunch package and refreshments. Register online on the conference registration form for "Hotel accommodation and social events", or on site if available place.

During the congress Resuscitation 2006, about 500 delegates made this trip. This time our aim is to break that record – and you have the opportunity to take part in it. Remember to bring good walking shoes and a rain jacket – just in case.

You will return to Stavanger just before midnight, so remember to book an extra night at your hotel, and not book your flight until sunday.

The hike is fully sponsored by Laerdal Medical.

About Stavanger

- the city and region

Our Town

Stavanger has developed a lively, cosmopolitan culture over the last 30 years, but has retained its intimate, small-town feel. Founded in the early 1100s as the seat of a bishopric, the town struggled for survival until rich herring fishing in the 1800s injected vitality and enterprise. When the herring failed, sardines provided new opportunities: King Oscar became a well-known brand on several continents for over half a century. The next chapter in the town history opened in the late 1960s with the arrival of the first oil drilling platform. Phillips' major Ekofisk find, in 1970, led to a rapid influx of an international community, and to Stavanger's new role as Norway's centre for the offshore petroleum industry. Today, Norway supplies about 1/3rd of the gas used in Europe.

Modern Stavanger combines a lively café and restaurant scene with a wide choice in arts and entertainment – strengths that led to the town being chosen as a cultural capital of Europe in 2008. This is an attractive place to stroll, both in the meandering pedestrian streets in the centre by the cathedral, and through the picturesque "Gamle Stavanger" area on the hill by the bay. And the cathedral itself, with its combination of Norman and high Gothic architecture and equipped with a rich Baroque pulpit made by the Scottish immigrant Andrew Smith in the 1600s, is well worth a visit.

The social centre and official conference pub, is Hall Toll, an old customs house.

Climate and location

Stavanger lies as far north as St. Petersburg and Anchorage, but its climate is mild, thanks to the Gulf Stream. Near Stavanger are long white beaches ideal for walking, popular among kites and windsurfers. The famous fjord, Lyse fjord, with its steep sides up to 1000 m high, is across the bay from Stavanger. The Kjerag cliff area at the bottom of the fjord attracts base jumpers from around the world, while the Pulpit Rock appeals to hikers of all ages. We highly recommend the organised excursion and hike to the Pulpit Rock on Saturday, free to SESAM 2012 participants and sponsored by Laerdal Medical Inc.

How to get to Stavanger

There are international flights to Stavanger airport (code SVG), a 100 NOK bus trip, or a 400 NOK taxi ride from the town centre. In addition, low-cost operators fly between the UK and Haugesund airport (code HAU), a 2 hour trip from Stavanger, by bus and ferry. The airport bus brings passengers to Haugesund, where they can board the Kystbuss to Stavanger. For schedules, visit www.kystbussen.no/english/

Accommodation

The Sesam 2012 will arrange bus transportation to the conference center in the morning, and return in the afternoon when the scientific program ends. Delegates staying at Clarion Hotel, Comfort Hotel Square, Radisson Blu Atlantic Hotel and Rica Park Hotel will be picked up and returned outside Radisson Blu Atlantic Hotel. Delegates staying at Park Inn, Rica Forum Hotel and Solborg Summer Hotel will be picked up and returned outside their hotels.

Clarion Hotel Stavanger

lies on the hill just above the city centre, 10 minutes by bus or taxi from the Congress centre.

Comfort Hotel Square

located in the city of Stavanger, providing easy access to many local points of interest. 10 minutes by bus or taxi from the Congress centre

Thon Maritime Hotel

is located centrally in Stavanger, with a view of Breiavatnet, close to the railway station and the bus terminal. Hotel gym and sauna.

Park Inn Stavanger

located 5-10 minutes walk from the charming city centre of Stavanger. 10 minutes by bus or taxi from the Congress centre

Radisson Blu Atlantic Hotel

is located in the heart of the city, overlooking Breiavatnet with its fountain and rich bird life, and a 10-minutes ride by bus or taxi from the Congress hall.

Rica Park Hotel Stavanger

lies opposite Rogaland Teater, a few minutes walk from the town centre and 10 minutes by bus or taxi from the Congress centre.

Rica Forum Hotel

is the highest hotel in the Rogaland region, and has a great view from it's restaurant on the 20th floor. 5 minutes by bus or taxi from the town centre, and 5 minutes by bus or taxi from the Congress centre.

Solborg Summer Hotel

is our budget hotel. Located 2 km from the conference center. 5 minutes by bus or taxi from the town centre, and 5 minutes by bus or taxi from the Congress centre.

Prices

Price per night includes breakfast. Prices are based on availability and are guaranteed if you make your reservation before April 14th
*All prices are in Norwegian kroner (see Currency for exchange rates).
