Simply NRP™

Simply NRP is a newly developed and innovative self-directed learning program that allows new learners and skilled healthcare professionals the ability to practice and perfect their skills independently, working toward the completion of the American Academy of Pediatrics/American Heart Association Neonatal Resuscitation Program.

Simple, Easy to Use:

- Kit allows students to learn and practice independently
- Contains everything the learner needs to complete Lessons 1 – 4 of the NRP program
- Instructional DVD provides an easy-to-follow format with clear direction and course instruction for the student

Solutions Based:

- Meets a specific need for hospitals by offering another option for neonatal resuscitation training thereby making NRP education available to a wider audience of healthcare providers
- Users can practice on their own time and complete the first 4 lessons prior to megacode testing with an NRP Instructor

NeoNatalie™ CPR Learning Manikin

Efficient:

- Prepares healthcare professionals for neonatal resuscitation events by practicing and refreshing essential bag/mask ventilation and chest compression skills
- Continuous practice and review of these initial steps of resuscitation ensures skill proficiency

- Self-directed instructional DVD provides a **fast and convenient step-by-step review and skill practice** for two NRP providers who will work as a team to prepare for Lessons 1 through 4 of the NRP course
- Skills practice includes infant ventilation and resuscitation techniques necessary to **complete the first four lessons of the Neonatal Resuscitation Program**
- Completion of lessons prepares students for **hands-on skill testing** under the guidance of an NRP Instructor

Skills Practice DVD

- Allows students and skilled NRP providers to review knowledge and practice skills necessary to complete the Neonatal Resuscitation Program
- DVD provides convenient step-by-step review for two NRP providers who will work as a team to prepare for Lessons 1 – 4

Instrument Panel:

- Simulated on-off switch for the radiant warmer; gauges for suction and oxygen and a code button to call for additional help

Proper Tools:

- Syringe
- Orogastric Tube
- Nasal Bulb
- Disposable Stethoscope
- Baby Blanket
- Neonatal Resuscitation Program Pocket Protocol Card

Laerdal Training Resuscitator

Printed Equipment Tray:

- Familiarizes the student with the necessary supplies required for a complex resuscitation
