## Supply Chain Specialist

The Supply Chain Management function focuses on designing, developing and managing the distribution and logistical systems from our own Manufacturing Units and finished goods suppliers to the end customer.

### The Position:

The position is based in Stavanger and the main responsibilities are:

- Participate in and manage supply chain projects
- Process improvement and optimisation
- Analysis work related to the global supply chain
- Provide supply chain expertise in Product Development and Configuration projects
- Liaise with sales and marketing teams as part of demand management
- Operational support

### The Candidate:

We are looking for a candidate with a degree (Bachelor or Master) in Business or Engineering, preferably with a specialisation in Supply Chain Management.

You also need to have

- Minimum 3 years relevant experience
- Extensive experience with ERP-systems and good Excel skills
- Good Analytical skills
- Good communication skills with the ability to communicate in an international environment and within cross-functional teams.
- Good interpersonal skills with the ability to build relationship in an international environment.
- Fluent English skills both oral and written

For more information about the position, you may contact Nina Roynestad phone no +47 97 74 98 33 or Arne Dyngeland phone no. +47 91 59 27 20
