

Press Release:

Laerdal Medical Joins EMSgrantshelp.com to offer Grants Assistance Program for Public Safety

Wappingers Falls, New York – Laerdal Medical is pleased to announce its participation in a program to link emergency response and public safety departments with grant funding opportunities.

In tough economic times, dollars are scarce and many city and county budgets are being cut. The amount of grant dollars available for police, fire, and EMS, has remained strong, yet many departments are unfamiliar with the grant process and lack the knowledge or resources to successfully apply for grants.

Laerdal Medical has joined the grant assistance program managed by EMSGrantsHelp.com to assist those interested in purchasing Patient Simulation educational solutions.

“Grants are a critical source of funding for departments across the country. The purpose of our program is to provide thorough information about available grants and the tools to create successful applications,” said Sarah Wilson, Director of the Grants Program. “We are proud to be able to assist with simplifying the grants process for first responders.”

EMS Agencies interested in obtaining grant assistance can visit the website and fill out a grant assistance form here: [Laerdal Grant Assistance Program](#)
