iSIM – Improving Simulation Instructional Methods Course

Holmesglen Simulation Centre hosted the first iSIM course in May 2013 in Australia facilitated by Dr Paul Phrampus, John O’Donnell and Daniel Beelitz. This 3-day internationally renowned intermediate program is designed to build upon skills and abilities for delivering simulation-based healthcare education through a variety of techniques and technologies. There were 23 participants from varying disciplines that came from around Australia including Western Australia, New South Wales, Canberra and Victoria.

Tuesday 3rd - Thursday 5th
December 2013
REGISTRATIONS ARE NOW OPEN TO ATTEND THE iSIM – DECEMBER 2013

This program created in collaborative effort between WISER at the University of Pittsburgh and the Gordon Center for Research in Medical Education at the University of Miami, emphasizes hands-on activities and active participation to maximize simulation-based instruction skill acquisition. Class group sizes are kept small to allow for maximum participation. The primary audience for this course are healthcare educators wishing to improve their skills as instructors in simulation education.

COURSE AUTHOR(S):
Geoffrey Miller, Hector Rivera, Paul Phrampus, John O’Donnell, Beth Kuzminsky

COURSE FACULTY:

Dr. Phrampus, MD  
Director of the Peter M. Winter Institute for Simulation, Education and Research (WISER)

John O’Donnell, CRNA, MSN, DrPH  
Associate Director, Nursing Programs, Director of Research

Daniel Beelitz  
Simulation Manager, Holmesglen Simulation Centre

Please note: For those who have attended the NHET-SIM program, this course will further build upon knowledge and skills attained.

Date: Tuesday 3rd – Thursday 5th December 2013  
Times: 8.00 am – 5.00 pm (daily)  
Location: Holmesglen Simulation Centre  
Building 3, Level 4  
488 South Road  
MOORABBIN VIC 3189

Course fee: $2,750.00 + GST

PLACES ARE LIMITED!

“Excellent facilitators, engaging, knowledgeable, challenged us, humour, created an environment where I felt safe to share ideas and get involved in activities”.

“I enjoyed that you don’t advocate one/your methodology or style opening our minds to all that is simulation. I enjoyed you taking the opposite points to stimulate discussions”.

“Fantastic course. I will highly recommend to my other colleagues”.

“Although not a novice I believe there is always something to learn. I have enjoyed being a “big sponge” over the past three days. The culmination of knowledge over the past three days came to a “head” today this afternoon. I thought it was fantastic that all the positives we have learned came together in our last scenarios”.

“Fantastic. Really started to enjoy the simulations as I felt more relaxed in the group and less apprehensive. Overall a fantastic 3 days”.

“Awesome!! Heaps of ideas and potential pit falls identified”.

“Really enjoyed the interactive group scenarios even if I was a little out of my comfort zone. Love the insight of being the student”.
