

Laerdal Medical, one of the world's leading providers of Healthcare Solutions, is dedicated to helping save lives. Laerdal serves healthcare providers and educators with products and services for Basic Life Support, Advanced Life Support, Simulation, Airway Management, Immobilization, Patient Care, Self-directed Learning and Medical Education.

Senior Project Manager Supply Chain

Senior Project Manager Supply Chain is part of the global supply chain organization in Laerdal Medical, and will manage and participate in strategy supply chain and corporate projects to:

- Improve existing supply chain processes, systems and set-up, both regionally and globally
- Develop and implement new business processes, systems and competencies that secures delivery of the functional and corporate strategy plans
- Support supply chain top management team, by improving supply chain performance, cost and relevant KPI's
- Participate in defining supply chain needs and requirements, as well as developing and implementing required supply chain processes globally
- Perform analysis and evaluations with, and for, Vice President Supply Chain & Manufacturing
- Assist and manage, cross functional projects in cooperation with VP Supply Chain & Manufacturing and the Supply Chain Operational Teams

We are looking for a candidate who has 4-7 years relevant experience from industrial or supply chain companies. The position requires higher education on a Master level in relevant subjects. Experience from management positions would be preferred, and previous experience from consultancy would be an advantage. You have strong analytical skills, and the ability to catch the Laerdal Medical concepts quickly. Fluency in English is required.

The real purpose of all we do is to make a significant contribution to improved survival and helping save lives. Living daily by our mission and values is key to helping us attain our goals, and will ensure that we continue to be an attractive workplace for current and future employees

Being based in 24 different countries worldwide implies that our workforce is an international and diversified one, both culturally and language wise. It is our experience that the work environment truly benefits from being multi cultural in that the upsides by far outnumber inherent challenges.

We explore the latest innovations, so that we remain the market leader in our strategic areas, yet also focus on simple solutions through disruptive innovation.

We will continue to offer well-defined competence development programs to align team members' competence and growth with business strategy and future core competencies.

The position is based at Laerdal Medical's head office in Stavanger, and reports to Global Supply chain Manager.

For further enquiries about the position, please contact Visindi:

Dag Vevatne, 916 56 111, or Siv Tone Hilde-Larsen, 916 56 109. All enquiries are treated in strict confidence, also towards our client in the initial phase of the process if requested. Please submit your application and CV via www.visindi.no ASAP.
