

Laerdal Medical, one of the world's leading providers of Healthcare Solutions, is dedicated to helping save lives. Laerdal serves healthcare providers and educators with products and services for Basic Life Support, Advanced Life Support, Simulation, Airway Management, Immobilization, Patient Care, Self-directed Learning and Medical Education.

R&D Internship in Laerdal Medical

Laerdal Medical is dedicated to our mission of Helping Save Lives through the advancements of resuscitation, patient care and global health initiatives. Our products are used globally by voluntary organizations, educational institutions, hospitals, ambulance services and the military. Laerdal Medical is an international company with presence in more than 25 countries and Manufacturing plants in Norway, China, USA and Mexico.

Strategic Research is engaged in collaborative research and concept development within resuscitation at birth and from sudden cardiac arrest; two conditions that causes more than 5 million deaths every year.

We are now looking for a R&D Intern for a paid position starting August 2017. The internship is based in Stavanger and has a duration of one year.

What you will do:

As our Intern, you will work across our projects and the duties include: Technical testing and reporting, help explore and test new technology, build prototypes, data management, project support and supporting our partners abroad. Our projects include new learning technology, sensors, apps web application and medical devices.

About you:

You are a young candidate, with either Master or Bachelor within physics, cybernetics, electronics, software, data systems or signal processing. You have an interest or experience within emergency medicine, newborn medicine, learning technology or medical technology. Experience with Matlab and/or SPSS will also be valuable.

About your colleagues:

You will work in a diverse and multi-cultural environment with people who strive to help save lives. We value each other's professionalism and enthusiasm and enjoy solving complex challenges together.

For more information contact Director Strategic Research Helge Myklebust at helge.myklebust@laerdal.com.

Application and CV should be sent to HR@laerdal.no within 31 July 2017.
