Target Group

Nursing teachers and educators involved in pharmacology education and the development of undergraduate nursing programmes and clinical learning environments. The forum is an event where innovations, ideas and experiences are shared with a range of colleagues interested in the latest thinking and developments in pharmacology education.

Aims of the Forum

- To support teaching and learning of medical care of patients and patient safety in the Nordic and Baltic countries
- To encourage nurse educators to debate and reflect on education issues
- To share ideas and experiences of teaching methods used in undergraduate nursing education for the development of nursing education in the Nordic and Baltic countries.

Accepted proposals

Notification of acceptance will be sent to the authors by May 31st.

During the Forum there will be ongoing poster presentations and exhibitions near the lecture hall and demo presentations in the ENVI virtual learning environment.
