How to activate software on SimPad using a license key

This document describes how to enable the SkillReporter software on a SimPad:
- With SimPad connected to Internet (Online Registration)
- With SimPad not connected (Offline registration)

(the process per se, is the same if you want to activate the Simulation software on a SimPad with the SkillReporter software pre-installed)

January 2014
You need to have the SimPad software version 1.7.5.17821 or newer (higher number) to be able to enable software by a license key.

Go to System Settings and “About SimPad” to see the view below:
• If you have the SimPad software version 1.7.5 or you can purchase a license and enable the SkillReporter software on your SimPad
• The SkillReporter software license is available at this location: http://www.laerdal.com/doc/2419/SimPad-SkillReporter#/Webshop/LICENSES
• Your welcome screen will look like this before the SkillReporter software is enabled:

The following slides shows how to activate the SkillReporter software using a license key.
Connect your SimPad to Internet, using a network cable (allowing the SimPad to connect with Internet takes a few seconds)
Go to “System Settings”
