AXIS P1354 Network Camera
Superb, light sensitive fixed camera with HDTV 720p

AXIS P1354 delivers multiple H.264 and Motion JPEG video streams in HDTV 720p resolution. Features such as wide dynamic range and day and night functionality provide superb image quality in daylight and dark conditions. AXIS P1354 supports Axis’ Lightfinder technology, making it extremely sensitive to low light. The camera supports Power over Ethernet (PoE) and offers digital pan/tilt/zoom and a serial port for communication with auxiliary equipment such as a pan/tilt head in order to remotely change the camera direction. The remote back focus function enables fine-tuning of the focus from a computer.
