Nifty Feeding Cup is a short-term use product for feeding breastmilk to newborns with breastfeeding difficulties.

**Caution:**
The cup should be reused provided proper reprocessing procedures are followed between use with different infants. It must be reprocessed before first use. Refer to **Reprocessing Instructions**.

Nifty Feeding Cup has been developed and designed through a collaboration between the University of Washington, Seattle Children's Hospital, PATH and Laerdal Global Health.

### Reprocessing Instructions

**STEP 1**

1. Wash in a clean tray with clean water and mild soap.
2. Scrub the cup to remove milk and all other residue.
3. Rinse in clean water to remove soap residue.
4. Repeat above steps until clean.

**STEP 2**

Perform one of the listed methods:

- **Boiling**
  
  ![Boiling](image)
  
  1. Use a fresh solution of 0.5% chlorine.
  2. Immerse cup completely in the solution for 20 min.
  3. Shake off and empty chlorine solution from the cup.
  4. Rinse the cup thoroughly in clean water.
  5. Repeat 3 times with fresh water to remove any chemical residue.

- **Steam Autoclaving**
  
  ![Steam Autoclaving](image)
  
  1. Allow the cup to air dry in a protected space.
  2. Inspect for damage and cleanliness/mineral deposits.
  3. If damaged, remove cup from use.

- **Chlorine (0.5%)**
  
  ![Chlorine](image)
  
  1. Use a fresh solution of 0.5% chlorine.
  2. Immerse cup completely in the solution for 20 min.
  3. Shake off and empty chlorine solution from the cup.
  4. Rinse the cup thoroughly in clean water.
  5. Repeat 3 times with fresh water to remove any chemical residue.
