# SimCapture Enterprise + CCM

## A learning management solution for healthcare simulation and education

Hospitals, Medical Schools and Nursing Programs may seamlessly deliver high-quality training, education, and quality improvement using SimCapture's learning management solution. Allowing administrators to effectively manage, record, and access simulation training anywhere, at anytime, with access to valuable data insights, SimCapture generates reports and statistics on performance and trends to track usage, KPIs and learning outcomes.

SimCapture Enterprise + CCM (Central Control Module) is our most advanced software tier, ideal for Standardized Patient programs and Inter-disciplinary Simulation Centers utilizing OSCEs that require large-scale workflow automation. SimCapture will centrally manage multiple bays, rooms and floors from a single control interface to streamline and automate while simultaneously tracking performance and simulation center usage.

# SimCapture Enterprise + CCM

## Cloud Access and Storage

SimCapture is a 100% cloud-based solution that can be accessed on-site, in-situ or remotely. Learners can access their sessions for debriefing and other training right from their mobile devices - anywhere, anytime

## Improve outcomes with robust data

SimCapture creates data that is meaningful and actionable. Ideal for research or learning needs analysis at the individual and course level. Utilize consistent and data-driven feedback to impact quality outcomes in the clinical and education setting.
## Clinical Exam Management

Preparing, organizing, and delivering clinical exams requires a system that integrates all facets of your program. SimCapture Enterprise + CCM provides the foundation necessary to automate your workflows for an efficient operational experience and facilitates the assessment of your program outcomes.

## Easily Schedule, Share and Collaborate

Through our effortless scheduling tool, instructors can schedule their own sessions, rooms and simulators. Instructors can also build, share and collaborate on curriculum, scenarios, and reports with your colleagues and administrators to deliver high-quality training and education.

## Fill exam rooms virtually with SimCapture Remote OSCE

Our new Remote OSCE Module works directly within the SimCapture Enterprise + CCM system. It brings the features of our best-in-class OSCE system outside of the center, creating the ability to continue running high stakes OSCE exams remotely, without the requirement for any 3rd party software or subscriptions. Administrators can also integrate Standardized Patient (SP) evaluations, Learner patient notes, and simulated EMR documentation directly into the OSCE workflow for seamless debriefing and reporting.

## Everything you need, all in one tool. Here are the benefits:

- New: Remote OSCE module securely connects Learners and SPs without the need for an external video conferencing tool for remote training
- Manage many rooms or floors at once
- Get automated OSCE exam flows and extensive reports
- Utilize integrated and customizable EMR
- Learner driven scenarios for peer-to-peer and self-recorded training
- Synchronized capture of multiple camera angles
- Simulator data capture and visualization

- Use your mobile device to record sessions and do debriefings
- Medical device capture (EKG, Ultrasound, EMR)
- Learner and faculty tracking and portfolios
- Center sign-in directs and tracks users
- Video annotation and session self-reflection
- Debrief from anywhere using just a browser
- Learner, faculty and facility usage reports
- Customizable scenarios, roles and permissions
- Flexible and scalable- one room or many
- Secure, mobile-friendly and cloud-based
- Best-in-class training and support

## Our Services

We are committed to helping our users and instructors gain the knowledge and insights they need to best use our SimCapture solution. That's why we offer an extensive Implementation Service package, including Technical Installation and Educational Services. Our Educational Services offer both on-site instructor-led courses as well as virtual sessions to ensure your training is at your convenience.
