sonosim®

Deliver High-Quality, Standardized Ultrasound Education with Real-Patient Pathology

SonoSim Starter Edition

The SonoSim Starter Edition provides a certified laptop with the pre-installed and patented SonoSim® Ultrasound Training Solution platform forming the foundation to build your ultrasound training curriculum. Select either one of the preconfigured module bundles or add individual modules from over 60 medical topics. Once your initial curriculum is established, manage and track up to 50 learners with access to Performance Tracker throughout the license period with the flexibility to add additional modules at any time.

Includes:

- SonoSim Ultrasound Training Solution preinstalled on a SonoSim-certified laptop
- SonoSim Probe
- Hard-shell protective carrying case
- Multi-User Online Access and SonoSim Performance Tracker for up to 50 learners
- Transvaginal probe adapter (for use with OB/GYN modules)
- Core Clinical Module – Fundamentals of Ultrasound

License Term – Five-year license – linked to PC

Visit Laerdal.com and SonoSim.com for more information.

Available pre-configured module bundles options:

390-00550

Anaesthesiology Bundle

- Specific content for Anaesthetists

BASIC & CORE CLINICAL MODULES

Arm-Arterial: Anatomy & Physiology
Arm-Venous: Anatomy & Physiology
Cerebrovascular: Anatomy & Physiology
Spine-Venous: Anatomy & Physiology
Airway
Aorta/IVC
Cardiology
Pulmonary
Bladder

ADVANCED CLINICAL & PROCEDURES MODULES

Focused Cardiac Ultrasound (FoCUS) – Part I
Introduction to Ultrasound-Guided Procedures
Ultrasound-Guided Femoral Line Placement
Ultrasound-Guided Internal Jugular Vein Cannulation
Ultrasound- Guided Subclavian Vein Cannulation
Peripheral Venous Access

390-00650

Critical Care Bundle

- Specific content for Critical Care Providers
- Supports the Laerdal-SonoSim Ultrasound Solution's Critical Care Bundle

BASIC & CORE CLINICAL MODULES

Heart: Anatomy & Physiology
Lungs: Anatomy & Physiology
Airway
Aorta/IVC
Cardiology
Pulmonary
Rapid Ultrasound in Shock (RUSH)

ADVANCED CLINICAL & PROCEDURES MODULES

Focused Cardiac Ultrasound (FoCUS) - Part I
Introduction to Ultrasound-Guided Procedures
Ultrasound-Guided Femoral Line Placement
Ultrasound-Guided Internal Jugular Vein Cannulation
Ultrasound- Guided Subclavian Vein Cannulation
Peripheral Venous Access

390-00700

OB-GYN Bundle

- Specific content for Obstetrician - Gynecologist Providers.
- Supports the Laerdal-SonoSim Ultrasound Solution –
SimMom Early and Late Stage Bundles

ANATOMY & PHYSIOLOGY MODULES

Breast	Female Pelvis	Liver	Bladder
Biliary Tree	GI Tract	Renal	

CORE CLINICAL MODULES

Bladder	OB/GYN
Renal	Intestinal / Biliary

ADVANCED CLINICAL MODULES

First-Trimester Pregnancy
Second and Third - Trimester Pregnancy Part I
Second and Third - Trimester Pregnancy Part II
GYN Ultrasound of Nonpregnant Normal Uterus
GYN Ultrasound of Nonpregnant Abnormal Uterus Part I
GYN Ultrasound of Nonpregnant Abnormal Uterus Part II
GYN Ultrasound of Nonmalignant Adnexal Conditions
GYN Ultrasound of Malignant Adnexal Conditions

390-00600

Emergency Medicine Bundle

- Specific content for Emergency Medicine Providers
Supports the Laerdal-SonoSim Ultrasound Solution
- Trauma Care Bundle

BASIC & CORE CLINICAL MODULES

Soft Tissue: Anatomy & Physiology
Aorta/IVC
Bladder
Cardiology
eFAST Protocol
Intestinal/Biliary
Musculoskeletal
OB/GYN
Pulmonary
Rapid Ultrasound in Shock (RUSH)
Renal

ADVANCED CLINICAL & PROCEDURES MODULES

Focused Cardiac Ultrasound (FoCUS) - Part I
Introduction to Ultrasound-Guided Procedures
Ultrasound-Guided Femoral Line Placement
Ultrasound-Guided Internal Jugular Vein Cannulation
Ultrasound- Guided Subclavian Vein Cannulation
Peripheral Venous Access

390-00750

Needle Guided Bundle

- Specific content for providers performing ultrasound needle guided procedures and also supports Laerdal-SonoSim Procedure Trainer

BASIC & CORE CLINICAL MODULES

Arm-Arterial: Anatomy & Physiology
Arm-Venous: Anatomy & Physiology
Cerebrovascular: Anatomy & Physiology
Leg-Arterial: Anatomy & Physiology
Leg-Venous: Anatomy & Physiology
Soft Tissue: Anatomy & Physiology

ADVANCED CLINICAL & PROCEDURES MODULES

Introduction to Ultrasound-Guided Procedures
Ultrasound-Guided Femoral Line Placement
Ultrasound-Guided Internal Jugular Vein Cannulation
Ultrasound- Guided Subclavian Vein Cannulation
Peripheral Venous Access

390-00800

COVID-19 Bundle

- Specific content for COVID-19

ANATOMY & PHYSIOLOGY MODULES

Lungs
Heart
GI Tract

CORE CLINICAL MODULES

Airway
Cardiology
Intestinal/Biliary
Pulmonary
Rapid Ultrasound in Shock (RUSH)
