

Major Features

- 20 case-based interactive web-based programs
- Cross-platform compatibility with Mac, Windows and Linux operating systems
- Accessible via any web browser
- Enhanced graphics and animations and more than 10 hours of videos
- Responsive and intuitive user interface

Additional Benefits

- Demonstrated in multiple studies to improve bedside skills
- Updated and revised curricula for medical, nursing and physician assistant professions
- Interactive use in self-learning mode saves instructor time
- Institutional site license for unlimited users delivers cost-effective training

Worldwide Adoption

- UMedic trains and assesses thousands of learners and practitioners in more than 50 countries
- The British Heart Foundation placed UMedic at 27 UK medical schools
- The American Board of Internal Medicine has used UMedic videos in its maintenance of certification program
- The Royal College of Physicians of Canada has used UMedic videos in its Internal Medicine certification examinations

Curriculum

The complete UMedic package consists of four series. All the series include five patient-centered programs that can be used alone or with Harvey. Each series is also available individually and in combination with others.

Series 1

Emphasizes pathophysiology and bedside skills

Normal, Aortic Stenosis, Aortic Regurgitation, Mitral Stenosis, Mitral Regurgitation

Series 2

Emphasizes common management problems

Angina Pectoris, Acute Inferior Infarction, Acute Anterior Infarction, Cardiomyopathy, Hypertension

Series 3

Adds congenital & acquired diseases

Atrial Septal Defect, Acute Pericarditis, Primary Pulmonary Hypertension, Acute Mitral Regurgitation, Hypertrophic Obstructive Cardiomyopathy

Series 4

Emphasizes pediatric diseases

Innocent Murmur, Mitral Valve Prolapse, Ventricular Septal Defect, Coarctation of the Aorta, Tetralogy of Fallot

Content

Each program includes the entire patient encounter. The student is guided by an instructor who provides explanations, feedback and remediation.

History - Bedside Findings - Diagnosis - Pathophysiology - Laboratory Data - Treatment - Discussion

Bundles

Represents substantial savings vs. acquiring individual series and/or Essential Cardiac Auscultation separately.

UMedicMD - Medicine / Residency Program

Essential Cardiac Auscultation, all 4 series of UMedic

UMedicPA - Physician Assistant Program

Essential Cardiac Auscultation, UMedic Series 1, UMedic Series 2, Acute Pericarditis, Mitral Valve Prolapse, Innocent Murmur

UMedicRN - Nursing Program

Essential Cardiac Auscultation, UMedic Series 1, Acute Pericarditis, Mitral Valve Prolapse, Innocent Murmur
