

# True Start™: A New, Simplified Learner Journey

True Start™ is the new onboarding experience for RQI participants, designed to provide every learner – novice or experienced – with a tailored, efficient start to their resuscitation education journey. The assignment is an adaptive, technology-enhanced learning experience that supports cognitive and psychomotor competence.

## What's Included in True Start?

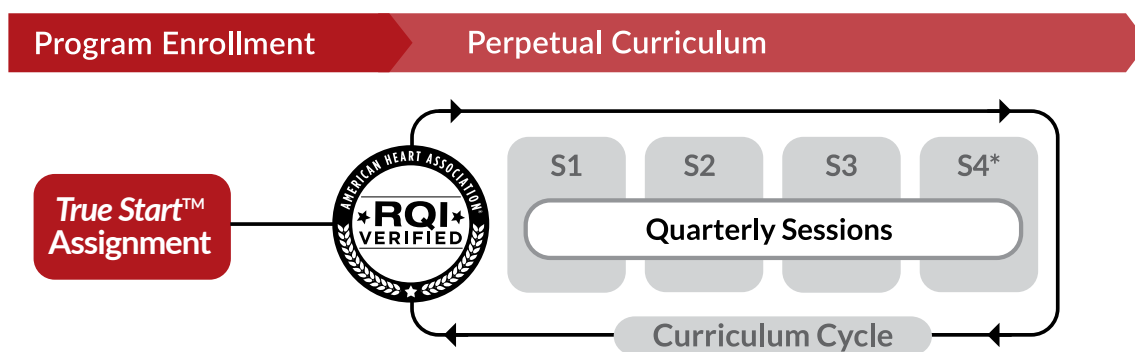

True Start includes everything your learners need and nothing they don't.

- Introduction and Questionnaires
- eLearning Course
- Skills Baseline and Assessment Activities

Introduction activities and the eLearning course can be completed on any compatible device. The skills baseline and assessment activities are completed using an RQI Simulation Station. Each step is designed to meet the learner where they are – and help them succeed on their perpetual learning path.

	RQI BLS – True Start	RQI ALS – True Start	RQI PALS – True Start
<b>ESTIMATED COMPLETION:</b> (Times vary with learner experience)	1–1.5 hours	2–3 hours	3–4 hours
<b>ASSIGNMENT ACTIVITIES:</b>	<ul style="list-style-type: none"> <li>• Questionnaires</li> <li>• Welcome to RQI</li> <li>• eLearning</li> <li>• Skills Baseline &amp; Assessment</li> </ul>	<ul style="list-style-type: none"> <li>• eLearning</li> </ul>	<ul style="list-style-type: none"> <li>• eLearning</li> </ul>

## Your Pathway into the RQI Perpetual Curriculum
