

Laerdal

helping save lives

SimCapture Pro

A foundational simulation solution

SimCapture Pro is a cloud-based solution that enables simulation programs to capture, debrief, and manage training—simply and effectively from day one.

It delivers the essentials for impactful learning—synchronized audio and video capture, in-session annotation, and structured debriefing that turn insight into action. Built for ease and flexibility, SimCapture Pro integrates directly with Laerdal simulators, supports transport and in-situ sessions with the Mobile Camera app, and helps with investment decisions through dedicated tracking and reporting.

A flexible, scalable solution designed to support your program today—and grow with your program over time.

SimCapture Pro

You decide how you want to record

IN THE LAB Audio Video Packages

Full AV solutions are seamlessly integrated into each room.

ON THE GO SimCapture Mobile Camera App

Use your phone or tablet to record sessions anywhere.

Capture every session

Record synchronized audio and video and add annotations that mark the moments worth revisiting during debrief.

Find key moments faster

Leverage AI-powered video transcripts to improve search and enhance accessibility.

Train beyond the sim room

Use the SimCapture Mobile Camera App to record in situ scenarios on a phone or tablet, annotate sessions, and debrief efficiently.

Track usage with ease

Center Sign-in directs and tracks users, while hours tracking and reporting give you a clear picture of simulation activities.

SimCapture - Pro tier features

- Secure, mobile-friendly, and cloud-based
- Uncapped cloud storage for data and video
- Best-in-class training and support
- Impact Management services offer dedicated, ongoing utilization guidance
- Flexible and scalable - one room or many
- Single sign-on module
- Center sign-in directs and tracks users
- Synchronized capture of multiple camera angles
- Mobile Camera App for recording on-the-go
- Simulator data capture and visualization
- Medical device screen capture (EKG, Ultrasound, EMR)
- Video annotation, AI-powered transcripts, and session self-reflection
- Debrief from anywhere using just a browser
- Customizable scenarios, roles, and permissions
- Essential reports showing statistics and trends on learner and faculty usage

Services

We are committed to helping our users and instructors gain the knowledge and insights they need to make the best use of our SimCapture solution. That's why we offer an extensive Implementation Service package, including Technical Installation and Educational Services. Our Educational Services offer both on-site instructor-led courses as well as virtual sessions to ensure your training is at your convenience. Additionally, our customers benefit from a dedicated Impact manager at no extra cost, providing ongoing support to achieve learning objectives, maximize ROI, and enhance program success through expert guidance and insights.
